

Manufacturing D & M Concrete Products Ltd.

Success Story

D & M Concrete has a family history of entrepreneurship within Lacombe. "Our family relocated to the area 60 years ago when my Grandfather first opened a business in the community," says Greg Lunn, President, D & M Concrete Products Ltd.

"It is true that we were born and raised here in Lacombe but truthfully, it really is the best spot for our business. It's central location and proximity to Highway 2 allows us to ship our precast products across the province."

D & M Concrete employs 25-30 staff throughout the year and a significant contributor to the local economy and community.
