

## MSP Implementation Plan – Status Update 2015

### Appendix B – Recommended Actions

Action Item	Status	Projects/Actions
Implement a salvage program for all demolitions, prioritizing historical buildings	In Progress/Ongoing	The Historic Building Overlay in the Land use Bylaw established requirements for advertising buildings for salvage. The Heritage Resources Committee is starting to salvage pieces from buildings but requires funding to allow the purchase of a storage shed dedicated to this program. Trash to Treasure offers a chance to reuse items
Develop and offer a downtown market and use it as an opportunity to educate individuals on local food options (local producers, local caterers, etc)	In Progress/Ongoing	Downtown market has been established. Plan for 2016 implementation based on budget request to promote local food
Expand food options at the Culture and Harvest Festival, with the intent of creating a local food festival in the future.	Ongoing	The festival has doubled the local food options in 2015
Identify and create a free hot spot in the downtown, sponsored by the City and the Chamber of Commerce	Completed	
Develop a corporate and community energy and emissions reduction plan.		Plan for 2016 implementation based on budget request
Identify a community green space and enhance and animate it with recreational activities, stage, park, etc.	In Progress/Ongoing	Commission Design drawings to identify opportunities to animate Cranna Lake
Develop a policy for the use of wetlands and water bodies within the city for stormwater management, environmental protection, and public use	Completed	Policy was included in the MDP
Seek funding to implement the Lacombe-Blackfalds-Red Deer transit services	Completed	BOLT launched in the summer of 2014.
Conduct a sidewalk review and implement a replacement program starting with the downtown core.	In Progress/ Ongoing	Enhancing sidewalk along 50 street to 50 Avenue Working with developers to enhance poor sidewalks in infill 50 Avenue project

Identify members and develop an advisory group, similar to the Olds Institute, with a mandate to foster business growth and initiatives	In Progress	In the process of establishing a Board, the community members are in place.
Develop a business case for a business incubation program (a cooperative or a for-profit) to increase business and shopping opportunities	Ongoing	Ongoing implementation and program development The Community Economic Development Plan is underway
Develop a program to provide recreation passes for lower income residents	Ongoing	FCSS has been providing free pool passes and free bus tickets to those with emergencies
Meet with the Province of Alberta and community groups to discuss the health needs to Lacombe residents in order to identify those services that will meet and adapt to those needs		The updated LUB will be looking to include an Overlay for the Hospital
Determine the budget to repair and improve the lighting system on the Cranna Lake trail system	Ongoing	
Identify additional community and recreational programming, which can be provided by the City, to meet residents needs.	Ongoing	Plan for 2016 implementation based on budget request via establishing a community partnered bike share program.
Develop and implement a communications and education strategy to inform residents of the results of the housing needs assessment.	Ongoing	Review of different items resulting from public consultation

**Appendix F– Other Actions Suggested by Citizens as part of the original MSP Action Plan, but not carried forward as formal Action items**

<b>Action Item</b>	<b>Status</b>	<b>Projects/Actions</b>
