Sunny 94

Success Story

Sunny 94 hit the airwaves at 9:41 a.m. on June 28th, 2006 as Lacombe's first (and to date, only) radio station, playing 'Central Alberta's Brightest Mix!'. Dedicated to providing top notch local news, sports, content and entertainment, Sunny 94 quickly became a local favourite both in Lacombe and throughout Central Alberta.

Starting with 8 staff members and growing to over twice that many in the past decade, Sunny 94 prides itself in hiring and developing local talent into the best radio team in the province! Lacombe provides a diverse and dynamic business community for Sunny 94 to partner with, and the opportunities continue to grow along with the station.

Situated on the bustling Hwy 2A corridor on the south end of the city, Sunny 94's bright and happy studio building reflects the people and culture within. With the contribution of employees and owners of the past, present and future, Sunny 94 looks to remain a vibrant part of the Lacombe community.
